What is this?

Why watch a 30 minute video when you can read through it quicker?

PowerReader is an innovative AI solution that correlates your transcriptions with your PowerPoint slides, so you have a single document that captures what was spoken in a remote meeting.

Benefits

- Easy to use, simply upload your video and receive your document!

- Embraces OneMicrosoft

- Uses the goodness from Microsoft 365 and Azure, 2/3 of the Microsoft Cloud
